

Feedback	Number of playtesters reported	Level	Priority	Category	Iteration: What do we try next?	Difficulty	Status	Additional comments
Player thinks the "bear" is a hippo	1	Fall	Low	Item Design	Redesign/rename the item	Not difficult	Not Started	
Bug: the game starts lagging when dragging the hanging cat (the music is playing normally)	5+	Multiple	High	Programming		Unknown	In Progress	Happened to one player: when they drag the hanging cat far away from the shelves, the lagging stops. But if the cat is close or on top of the shelves, the lag comes back
The font of the text messages should also be pixel	1	Multiple	Middle	UI/UX	Get a font	Not difficult	Not Started	
Bug: when entering the fall, the shelves are extremely messy that they seem more like a bug than intentional								
	1	Fall	High	Programming		Unknown	Not Started	
Player didn't notice there's another shelf in the autumn	2	Fall	Middle	Game Design	Cat will go in	Unknown	BACKLOGGED	
Player did not realize there's a "nudge" mechanic at all	2	Multiple	Middle	Game Design	Tutorial	Unknown	BACKLOGGED	
When opening a gochapon, player noticed several names were deleted , and they were scared because they thought the striked items were deleted	1	Multiple	High	Programming	Ask Elvira to check?	Unknown	Not Started	
Player wonders if they can get multiple copies of one item, since it makes more sense as a gochapon mechanic	1	Multiple	Low	Game Design	duplicates will be introduce	Unknown	BACKLOGGED	
Wishes to see more animation/vfx happening in the background when opening a new gocha . For current version it's just a plain dark background	1	Multiple	Middle	Art	wip	Not difficult	In Progress	
It would be cool if the "xxx is excited to meet you" is expressed in different flavors based on different characteristics of items	1	Multiple	Low	Narrative / Mom	description will be in next build	Not difficult	IGNORED	
Player wishes they can rotate the item more precisely. (one player suggests 45 degrees)	3	Multiple	High	Programming		Not difficult	Not Started	One player also found out that if they are not satisfied with the current rotation of an item, they could put it back to the inventory, and the angle would reset when they drag it back.
It's hard to make everything scrollable and its slightly annoying (especially the pair of black and white cats)	2	Multiple	High	Item Design	gravity? shap of the object?	Unknown	Not Started	Mentioned this to art, but engineers could take a pass on this first
Doesn't know if Joey 's a girl or a boy	1	Multiple	Low	Narrative / Mom		Unknown	IGNORED	
Wants more anticipation / interaction / animation while opening a new gocha . Now it's too fast with a single click, which might reduce satisfaction	1	Multiple	Middle	UI/UX		Unknown	BACKLOGGED	
The message printed on the paper reads much nicer than the message on the phone in the screen. They don't feel like they come from the same person.	1	Multiple	High	Narrative / Mom	Will have narrative team look at this	Not difficult	Not Started	
Positive Feedback								
"Love that now we can hold 6 items at once!"	2			UI/UX				
"Love the name list you added to show the name of the items"	3			UI/UX				
"Love how stupid the bear and the sphinx cat look"	1			Art
