storage box needs more physics? i.e. while holding an item in the box and moving it around, it will also move other items in the box around?	1	Multiple	Middle	Programming		Unknown	Not Started		
INPUT: Player wants a button that returns the item back to where it was, when they accidentally clicked on an item they've already carefully placed.	2	Multiple	Middle	Game Design		Unknown	IGNORED		
The trigger area of inventory is not covering the whole box (in the pic, when the cursor is placed here, player should be able to interact with inventory).	1	Multiple	Middle	UI/UX		Not difficult	Not Started		
INPUT: Player wants to long press A & D keys to keep nudging, instead of having to keep pressing the keys for multiple times.	1						IGNORED	is this what we want tho?	
There should be arrows UI on the left & right side of the screen to indicate players they can move the camera view.	1	Multiple	Middle	UI/UX		Not difficult	Not Started		
BUG: There's no gravity in the storage box , but there is gravity outside of the box area when zoomed in.	2	Multiple	High	Programming		Not difficult	Not Started		
Player doesn't understand the purpose of the storage box . They think they're placing the items on the lid of the box.	1	Multiple	Low	Game Design		Unknown	BACKLOGGED		
BUG: When inventory is full or every gacha's opened, the "continue" button won't be functioning anymore, and player has to press "home" button to return back	1	Multiple	High	UI/UX	make "continue" to go home	Not difficult	Not Started	 	
BUG: Some items are already opened at the start of the game and they're shown in the catalog. (Is it intended?) Although they're already included in the catalog, player still may get the item in their gameplay.	2				(already logged into bug tracker)		IGNORED		
The size of the "cuties" item doesn't seem correct.	1	Multiple	High	Item Design		Not difficult	Iterated		
INPUT: Player wishes there's a "double click" input: when double clicking an item, it goes back to inventory automatically so player doesn't need to drag them every time.	1	Multiple	Middle	UI/UX		Not difficult	Not Started		
Player thinks this plant item should also be hang-able .	1				it is, it's just not implimented correctly yet		IGNORED		
The shift of the story comes too sudden. It costs 4 levels for the story to reach its conflict in the climax, and ending it in 1 level is too soon. Player expects more.	1	Spring 02	High	Narrative / Mom		Unknown	Not Started		
Player thought that the gatchas rotate wobbly on the shelves when there is a colider (it freaks out when it does not fit)	1	Multiple	High	Programming		Unknown	Not Started		
Player believes that it is weird that there is only one keyboard input (nudge), while the game is fully playable only by mouse. This leads the player to use the nudge button less often .	1	Multiple	Low	UI/UX	we have some other hot keys + it's hard to fit everything on a mouse		BACKLOGGED		
Player believes that the purr from the cat is very subtle and unclear.	1			Audio			IGNORED	temp asset	
Player belives that the placement(first level) is very far away and leads the room to have a lot of empty space.	1			Game Design	set dressing later in beta should help		IGNORED		
Player complained about not being able to nudge the "nudge" sticker on the bulletin board.	1						IGNORED	huh why you wanna nudge a sticker tho lol	

Feedback	Number of playtesters reported	Level	Priority	Category	Iteration: What do we try next?	Difficulty	Status	Additional comments	
Player brought up if you could scroll out of the shelves, you should be able to scroll back into them.	1	Multiple	Middle	Programming		Unknown	Not Started	good point!	
Player wants to put the furniture in the house shelf .	1				you could		IGNORED		
Player did not realize that the bulletin board wasn't a shelf and the art shows things sitting on board (a bit misleading).	1				again, not implimented properly yet		IGNORED		
Player throws things out as a way to trash the items.	1						IGNORED		
Player wants to hang up the picture (bulletin board or in general).	1			Item Design	there will be hangable pictures later for a mom item		IGNORED		
Player wants to hang the cats on the bulletin board pegs.	1						IGNORED		
Bulletin Board is useless right now.	1				again, not implimented properly yet		IGNORED		
Player gets upset about losing their gatchas (level 2), and especially the cats.	1				this is a bug and it's being reported		BACKLOGGED		
Player throws out all the big anime girls (the big items are given a bit later in the game, when they have placed a lot of items) and doesn't use them.	1	Winter	Middle	Game Design	think about when to spawn certain items	Not difficult	In Progress		
Player wants to use the Nudge sticker in other areas . They can't put it into their inventory to move to a different area.	1						IGNORED	scope...	
Players wants the new shelves to be bigger.	1	Spring 02	Low	Shelf Design	should we tho?	Not difficult	BACKLOGGED	interesting	
Player believes that the storage box should have overlap, especially since it becomes a top down.	1	Multiple	Middle	UI/UX		Unknown	Not Started	agree	
Player cannot notice the new shelves when they enter a new level. However, they're super surprised when they accidentally find them out.	1			Shelf Design					
Player loves how the new shelves look.	1			Shelf Design					
(Ask: will you prefer a highlight effect on the items when you hover it?) Answer: I don't know, haven't considered it at all during gameplay.	2			UI/UX					
Player loves how the main menu is interactive.	1			UI/UX					
Player found all the shelves.	1			Game Design					
Player found that they can put gatchas on the window .	1			Game Design
